Wireless Security, Monitoring Surveillance System

OTT Communication's MivaTek wireless security, monitoring, and surveillance system is a plug & play home security solution that requires no pairing and installs in minutes. With 24/7 high-quality live video, you can monitor your home or business from anywhere in the world, with seamlessly integrated video streams from multiple locations into one easy to use smartphone interface.

The MivaTek Smart & Secure Cloud technology and integrated software provides fast, accurate alerts and notifications to multiple authorized users. It will even record and send a video clip 5 seconds before to 25 seconds after an event is triggered, providing you with the verification you need to take appropriate action.

OTT Communications offers additional MivaTek solutions, that allow you to quickly and easily expand the capabilities of your system. The **Safety Module** includes Heat and Smoke/CO Alarm Listening Devices, a Water Leak Detector, and a Garage Door Sensor. The **Care Module** includes Panic Alert Pendants and offers several optional aging-in-place components.
